Many advisers are nearly done with old-crop soybeans. Meanwhile, sales on the books for 2011 are still slow moving.

*Adviser uses hedged-to-arrive contracts, which do not show up as cash sales until the basis is set. Market value is average of cash sales, unsold portion plus futures/options value. For methodology, visit www.TopProducer-Online.com. To have your crops sold on the advice of one of these advisers, call (800) 933-3996.
